## Vision (Mimix/iTera) - \*USRPRF requirements

Last Updated: Dec 07, 2016 04:00PM AEDT

This item provides information on the \*USRPRF required to operate and administer Mimix.

In short:

In order to be able to UPGRADE Vision (Mimix/iTera), a profile with the following authorities is required.  
\*ALLOBJ, \*AUDIT, \*IOSYSCFG, \*JOBCTL, \*SAVSYS, \*SECADM, \*SERVICE, and \*SPLCTL

You do not have to provide the password for QSECOFR.

You do need to make a profile with \*SECOFR class authorities available.

Do not add other libraries to the library list or specify any user job descriptions etc.

Doing so will cause the installation to fail.

(Preferably COPY an unmodified QSECOFR profile & provide that to AvailSol)
